Training programme on
“Heat Stress at Workplace –
Assessment & Remedial Measures”
(20th to 22nd May, 2024)

ABOUT THE COURSE

Heat stress is a significant occupational hazard, at workplace where workers are exposed to high temperatures and humidity levels. It occurs when the body's mechanisms for regulating body temperature are overwhelmed, leading to a range of health effects that can impact productivity, safety and well-being. Effective assessment and remedial measures are essential for mitigating the risk associated with heat stress in the workplace.

By understanding the causes of heat stress, its assessment and implementing appropriate remedial measures, management can create safer and healthier environment for their employees. Therefore, Regional Labour Institute, Kanpur under DGFASLI is providing a training platform on above said subject for the intended participants.

OBJECTIVES

The objective of this training program is to promote a safe and healthy working environment by equipping individuals with the knowledge and skills needed to prevent and manage heat-related risks effectively.

This training program aims to facilitate the delegates on heat stress involves several key steps to ensure its effectiveness and engagement of participants.
