**Training Programme on  
“Safety in Scaffolding Works” (07<sup>th</sup> to  
09<sup>nd</sup> August, 2024)**

**ABOUT THE COURSE**

Workplace can be hazardous places to work, with numerous potential hazards and risks present. Scaffolding works are extensively carried out at construction sites / inside factory premises to facilitate various works. Majority of accidents / injuries are attributable to non-compliance of safety procedures during execution of these works.

Participants will learn to maintain and operate scaffolding safely, minimizing risks and ensuring a secure work environment. It is essential that all safety professionals help develop and sustain workplace cultures that are driven by safety culture — not only regulatory consequences.

This program intends to benefit the safety officers / safety professionals / supervisors working at construction sites / inside factory premises in managing risks at ALARP levels.

**OBJECTIVE**

This program intends to benefit safety officers / safety professionals / supervisors working at construction sites / inside factory premises in efficient management of safety and health at workplace through the application of various safety standards and procedures related to scaffolding works.
