Health Risk Assessments
from
25th to 27th September, 2024

ABOUT DGFASLI

DGFASLI is an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health (OSH) in factories and docks. It also advises factories on various problems concerning safety, health, efficiency and well - being of the persons at workplaces.

ABOUT THE COURSE

Rapid changes and advancements made in the recent decades in science and technology have made work environment a subject of great concerns in industries and other work places particularly in relation to Occupational Safety, Health and Working Conditions. Daily new chemicals are being introduced and new processes are being handled to keep the pace with updated technology. The situation has made industrial working conditions so complicated which were not seen before. Occupational and Environmental Hygiene professionals must be aware of the changes likely to take place and develop strategies to assure the profession's full participation in protecting the health and safety of the workers and the working environment of tomorrow. The programme aims at imparting knowledge on Occupational Hygiene practices to improve the working conditions from Hazards in Industries, Ports, Docks and Construction Industries.

OBJECTIVE

Keeping in view, an updated training programme has been framed by this institute, a premier Organization of Govt. Of India in the field of Occupational Safety and Health to propagate the knowledge and techniques to Industrial personnel in the areas of recognition, evaluation and control as well as case studies of their own work environment under this above mentioned training programme. This is a excellent opportunity to update knowledge in the area of monitoring and control of exposure from work environmental hazards and pollutants and to take adequate action to protection from possible occupational disease and hazards as encountered in present work floor. This training programme will be conducted through theoretical session along with practical demonstrations with films and audio visuals aids.

COURSE HIGHLIGHT

- Principal and Practice of Occupational Hygiene and its importance for applications and implementation for worker's health risk Assessment.
- Statutory Provisions in the Factory Acts, 1948 and OSH & WC Code, 2020, ILO Conventions etc.
- National Policy on Safety, Health and Environment at Workplace
- Monitoring of Work Environments.
- Sampling and Analysis of Industrial Pollutants.
- Industrial Hygiene Laboratory Visit and Demonstrations.
- Health risk Assessment and Control of Work Environments.
- Selection and Uses of Personal Protective Equipments.
- Non Respiratory/ Respiratory Testing Laboratory Visit and Demonstrations.
- Case Studies/ Industrial Hygiene Study/Survey.
