

DIRECTORATE GENERAL FACTORY ADVICE SERVICE AND LABOUR INSTITUTES

Ministry of Labour and Employment, Government of India
Construction Advice Service Division

**15 days full time certificate course on
“SAFETY IN WORKING AT HEIGHT & SCAFFOLDING”
04.03.2024 - 22.03.2024**

Course Coordinators

Mr. Ramesh Singh Rawat, Director (S)
E-mail: ramesh.rawat28@dglasli.nic.in
and
Mr. Rajkrishna M.R., Dy. Director (S)
E-mail: rajkrishna@dglasli.nic.in

Venue

Central Labour Institute, Mumbai

Course Objective

The aim of this scaffolding training is to provide the candidate with both theoretical and practical knowledge to enable them to erect, inspect, use, and dismantle scaffolds, using guidelines.

The course will provide knowledge of the legal obligations under the OSHWC Code, 2020 for ensuring enhanced legal compliances.

Eligibility

Supervisors working in the construction industry with minimum one year experience are eligible to attend the course. Only 50 candidates will be accepted on 'first come first serve basis' to ensure quality learning.

Pattern of Examination

The candidates have to write pre-test as an assessment before the start of the course. Attendance of minimum 80% will be required for the candidates to appear for the final examination, which will be conducted at the end of the course. The candidate must secure minimum 60% marks to pass and be eligible for the award of the certificate. The successful candidates will be provided with certificate.

About DGFASLI

DGFASLI is an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health in factories and docks. It also advises factories on various problems concerning safety, health, efficiency, and well-being of the people at workplaces.

Background

The major cause of accidents in the construction sector is due to the fall from height. This calls for urgent need to protect construction workers from hazards and risks associated with working at height and construction, use and maintenance of scaffolds in construction sites.

Scaffolds are temporary structures providing means of access and safe working platforms to facilitate working at height, and to keep materials and tools in limited quantity. Scaffolding has a variety of applications. It is used in construction, alteration, routine maintenance, and renovation activities. Use of scaffolds provides safe and more convenient working conditions as compared to the conventional working arrangements such as use of ladders, overhead stretching working, etc. Properly erected and maintained scaffolding provides workers safe access to work locations, levels and stable working platforms, and temporary storage for tools and materials for performing immediate tasks.

These 15 days full time course on 'Safety in Working at Height & Scaffolding' and has been designed to train the supervisors on various risks and hazards associated with erecting, using, and dismantling different types of scaffoldings used in construction industry, with a view to equip them with the required knowledge and skills on aspect of scaffolding and working at height and to qualify them as responsible persons as under the OSHWC Code, 2020. Further, the course will also help the supervisors to become competent supervisors for scaffolding activities at construction sites.

**15 days full time certificate course on
“SAFETY IN WORKING AT HEIGHT & SCAFFOLDING”
04.03.2024 - 22.03.2024**

Course Methodology

The course is a full-time course of 15 days in duration. The course consists of classroom lectures, practical and field visits. The course consists of modules:

Module 1

Concepts of Construction Safety

Module 2

Legal Provisions and Standards on Scaffolding and working at height.

Module 3

Scaffolds - Guidelines and Code of practices

Module 4

Safety in Scaffold Erections and Dismantling

Module 5

Safety in Working at Height

Module 6

Use of PPE

Module 7

Hands on experience in scaffolding construction and dismantling

Module 8

Hazard Evaluation and Risk Management

Module 9

Work Permit System

Module 10

Standard Operating Procedures

Module 11

Site Visits

Module 12

Case Studies

Nomination

Interested candidates can register by sending an email to the course coordinator. After confirmation of the course coordinator only, nominee will deposit institution fee @ Rs 10,000/- (Rs. Ten Thousand only) per candidate through Bharatkosh portal (<https://bharatkosh.gov.in>) using following steps. Fees once submitted will not be refunded/ adjusted.

- ❖ Login to <https://bharatkosh.gov.in>
- ❖ Quick Payment
- ❖ Ministry: 021 Labour & Employment
- ❖ Purpose: Training fee or course fee of the workshop conducted
- ❖ Pay & Account Office (PAO): 030263 - PAO (DGFASLI), Mumbai
- ❖ DDO Code: 230265 (Central Labour Institute, Mumbai)
- ❖ Remarks: 15 days full term certificate course on Safety in Working at Height & Scaffolding

Hostel Facility

- ❖ Not available

Class Timing

- ❖ 10:00 AM to 05:00 PM
- ❖ Saturday & Sunday are holidays

Confirmation

After verifying the credentials, final confirmation of participation will be sent by the coordinator through e-mail to the selected candidates.

Last date for applying to the course: 01.03.2024
