**TRAINING PROGRAMME ON**  
**HAZARD IDENTIFICATION TECHNIQUES FOR CONSTRUCTION SITES**  
**11.03.2024 - 13.03.2024**

### **About DGFASLI & RLI, Faridabad**

DGFASLI is an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health in factories and docks. The Regional Labour Institute at Faridabad is a subordinate office under the DGFASLI and undertakes training programs, professional programs, consultancy audits, surveys and studies for promotion of occupational safety and health in factories in the northern part of the country.

### **Background**

Construction sites can be hazardous places to work, with numerous potential hazards and risks present. Ensuring the safety of workers and the public should be a top priority for everyone involved in a construction project. The objective of this program is to provide participants with an understanding of the Hazard Identification Techniques that can be used to identify potential hazards on construction sites and how to effectively manage them.

### **Programme Preamble**

This program intends to benefit the safety officers / safety professionals / supervisors working at construction sites / construction related works inside factory premises in managing risks at ALARP levels.

### **Programme Highlights**

- National Policy on Safety, Health and Environment at Workplace
- Understanding the concept of hazard and risk
- Legal requirements for hazard identification and risk assessment
- Components of a safety management system
- Site-specific hazard identification techniques
- Developing hazard checklists

### **Participants**

This training is being organized for safety professionals engaged in factories/ construction. The number of participants to be enrolled for this course will be up to 30 only on first come first serve basis.

**Certificate for all those who register and attend**
