

GOVERNMENT OF INDIA
MINISTRY OF LABOUR & EMPLOYMENT
CENTRAL LABOUR INSTITUTE, MUMBAI
(INDUSTRIAL MEDICINE DIVISION)

**3 - Days Training Program on
“Industrial First Aid & CPR”
from 26th to 28th March, 2025**

About the Programme:

First aid and CPR (Cardiopulmonary Resuscitation) are critical life-saving techniques that can make a significant difference in emergencies. Knowing first aid helps in providing immediate care for injuries, illnesses, or accidents until professional medical help arrives. CPR is particularly essential in cases of cardiac arrest, where it helps maintain blood flow to vital organs, increasing the chances of survival. Quick and correct action can reduce complications, prevent further harm, and even save lives. Both skills are invaluable in emergencies, promoting safety and reducing the severity of injuries. Training in first aid and CPR ensures individuals are prepared to act confidently in urgent situations.

About DGFASLI & Central Labour Institute:

DGFASLI is an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational health and safety in factories and docks. It also advises factories on various problems concerning health, safety and environment efficiency and well - being of the persons at work places.

Programme Highlights:

Life-saving Skills: First aid and CPR training equips individuals with the knowledge to respond effectively to medical emergencies, potentially saving lives in critical situations.

Immediate Response: It teaches how to provide immediate care for common injuries or medical issues, such as choking, bleeding, burns, or fractures, before professional help arrives.

CPR Techniques: Participants learn how to perform CPR to restore airway, breathing and circulation.

Injury Prevention: The training provides valuable insights on how to recognize hazards and prevent injuries.

Confidence in Emergencies: The training boosts confidence in handling stressful or life-threatening situations, ensuring timely and correct intervention when needed.
