Half a day Online Training Programme on
“ACCIDENT REPORTING & INVESTIGATION”
23rd September, 2020 (10.00 - 13.00 hrs)

About DGFASLI
DGFASLI is an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health in factories and docks. It also advises factories on various problems concerning safety, health, efficiency and well-being of the persons at work places.

Background
All the accidents taking place at industries, construction sites and ports are due to some direct causes or immediate causes and indirect causes also known as root causes. Direct causes are generally visible and can be identified immediately, but to identify indirect causes or root causes, accident has to be investigated. Accident Investigation may be defined as an analysis, evaluation and report of an accident based on information gathered by an investigation. The quality and usefulness of the information is directly related to the degree of thoroughness and conscientiousness of the investigation. A complete investigation includes an objective evaluation of all facts, statements, opinions and related information as well as action plan to prevent or control of similar occurrences. It is essentially an after – the – fact approach for examining how accidents are caused and thereafter develop suitable corrective measures.

Therefore, Central Labour Institute, DGFASLI Mumbai is providing online training platform for Intended participants to learn from their own place using mobile phone/laptop/desktop (with webcam, microphone & speaker) in view of COVID-19 pandemic situation/preventive measures.

Programme Highlights
An overview of classification of accidents and reporting procedure of reportable accidents to various authorities under various OSH statues. Investigation technique of an Accidents to identify root causes, and its classification as per IS 3786.
