Half a day Online Training Programme on
“Evaluation and Control of Industrial Ventilation”
24th September, 2020 (10.00 - 13.00 hrs)

About DGFASLI
We are the DGFASLI an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health in factories and docks. It also advises factories on various problems concerning safety, health, efficiency and well-being of the persons at work places.

Background
Ventilation is a useful method for controlling the air quality and the thermal exposures that the worker encounters. Ventilation can be used to remove air pollutants from the breathing zone of the workers. It can also be used to condition the air for worker’s comfort. In addition, ventilation systems can be designed to supply air to assure the proper operation of any local exhaust system in use. There is no single type of ventilation system that solves all problems.

Therefore, Central Labour Institute, DGFASLI Mumbai is providing online training platform for Intended participants to learn from their own place using mobile phone/laptop/desktop (with webcam, microphone & speaker) in view of COVID-19 pandemic situation/preventive measures.

Programme Highlights
- An Overview of Industrial Ventilation
- Evaluation and Ventilation Control Techniques
- Standard and Statutory requirements.

Participants
Supervisors and above working in Factories, Ports, Refineries and Construction Industries. Only 50 participants will be accepted on or before 22nd September 2020 up to 4.00 p.m. on ‘first come first serve basis’ to ensure quality learning.
