

DIRECTORATE GENERAL FACTORY ADVICE SERVICE AND LABOUR INSTITUTES

**HALF A DAY TRAINING PROGRAMME ON
MONITORING OF WORKPLACE ENVIRONMENT
22nd September, 2020 (1000 – 1300 hrs)**

About DGFASLI

We are the DGFASLI an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health in factories and docks. It also advises factories on various problems concerning safety health, efficiency and well-being of the persons at work places.

Background

Industrial revolution altered the nature of work and sharply increased the environmental hazards at the workplace. Large industrial sites exposed many more people to an increased variety of physical, chemical, environmental and other hazards. Monitoring environmental stress/ agents at workplace has become a vital issue in the recent time. Industries must be equipped with adequate paraphernalia and trained personnel to regularly monitor the work environment. Permissible Limits of Exposure for chemical substances have been laid down in Second Schedule prescribed under the section 41F of the Factories Act, 1948. It is expected from the industrial management to comply with these limits in order to effectively control the exposure to airborne chemical and physical agents in industries.

Therefore, Regional Labour Institute, Faridabad is providing online training platform for intended participants to learn from their own place using mobile phone/laptop/desktop (with webcam, microphone & speaker) in view of COVID-19 pandemic situation/preventive measures.

Programme Preamble

The training programme on "Monitoring of workplace environment" is an effort to impart the techniques of evaluation and control of airborne environmental hazards to enable the industries to meet the statutory requirements and to ensure health and safety of workmen. It would provide technical knowledge, guidance and skills for managing these hazards at workplace in an effective manner and create awareness about the roles and responsibilities of various stakeholders in monitoring of workplace environment.

TOPICS

- Health hazards due to chemical and physical agents at workplace.
- Management of environmental hazards at workplace.
- Provisions for control of workplace environment under the Factories Act 1948.
