## HALF A DAY TRAINING PROGRAMME ON SAFETY WITH SCAFFOLDING 15<sup>th</sup> September, 2021 (10.00 - 13.00 Hrs)

### About DGFASLI

We are the DGFASLI an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health in factories and docks. It is also advises factories on various problems concerning safety health, efficiency and well-being of the persons at work places.

### Background

The construction sector is growing by leaps and bounds in the country. The likelihood of injury in the construction sector is higher than the manufacturing sector given the workplace conditions and the nature of work required to be performed. Scaffolding is one of the hazardous structures that is widely used in the construction sector. Use of scaffolding is almost inevitable in any construction work. Building scaffolding can present numerous serious hazards to workers. Injuries involving scaffolds include falls, tip-overs, being struck by falling equipment, and coming into contact with energized power lines. Consideration of all possible control measures is required to make a decision about the reasonably practicable control measure for the workplace.

### Programme Preamble

This program intends to benefit the safety professionals working in construction industries to understand the hazards associated with scaffoldings in construction sector and ways to identify and control them.
