

DIRECTORATE GENERAL FACTORY ADVICE SERVICE AND LABOUR INSTITUTES

Ministry of Labour and Employment, Government of India

HALF A DAY TRAINING PROGRAMME ON SAFETY WITH POWER PRESSES 8th December, 2021 (14.30 – 17.30 Hrs)

About DGFASLI & RLI, Faridabad

We are the DGFASLI an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health in factories and docks. The Regional Labour Institute at Faridabad is a subordinate office under the DGFASLI and caters to occupational safety and health in factories in the northern part of the country.

Background

The power press is an important machine tool which is used to change the shape of metal. In the ancient times metal was shaped manually using hand hammers. Later on big hammers were used to press large quantities of metal at a time, or to press a thick metal work piece. A helper was specially required to swing the sledge hammer while smith positioned the work piece. Later on due to electrification, most of the power presses now use electrical power or hydraulic power to obtain the required pressure. At the same time various types of dies were also discovered for use within the power press. Moreover advanced methods and high accurate machines were also invented.

Programme Preamble

Today the power presses are categorized based on the mechanisms either mechanical press or hydraulic press. This program intends to provide an the participants with the basic features of power presses their associated hazards and control measures required to be in place for safe operation of power presses.

Programme Highlights

- Basic power press operations
- Hazards of power press
- Safety in power press operations
