

DIRECTORATE GENERAL FACTORY ADVICE SERVICE AND LABOUR INSTITUTES

Ministry of Labour and Employment, Government of India

Half a day Online Training Programme on “Safety in Mechanical Handling and Storing of Materials” 27th January, 2022 (14.30 hrs - 17.30 hrs)

About DGFASLI

DGFASLI is an attached office of the Ministry of Labour & Employment, Government of India and serves as a technical arm to assist the Ministry in formulating national policies on occupational safety and health (OSH) in factories and docks. It also advises factories on various problems concerning safety, health, efficiency and well-being of the persons at workplaces.

Background

The efficient handling and storing of materials are vital to industry. In addition to raw materials, these operations provide a continuous flow of parts and assemblies through the workplace and ensure that materials are available when needed. Unfortunately, the improper handling and storing of materials often result in costly injuries. In addition to training and education, applying general safety principles—such as proper work practices, equipment, and controls—can help reduce workplace accidents involving the moving, handling, and storing of materials.

Therefore Central Labour Institute, DGFASLI, Mumbai is providing online training platform for interested participants to learn from their own place using mobile phone/laptop/desktop (with webcam, microphone & speaker) in view of the Covid 19 pandemic situation/preventive measures.

Programme Highlights

- ❖ Overview of OSH legislations.
- ❖ Safety in use of Lifting Machines, Tackles and transport equipments
- ❖ Procedure for testing, examination and certification of mechanical handling machines and tackles.

Certificate of Participation: E-Certificate will be issued to all the participants who register and attend the programme.

Participants

This programme is designed for Safety Managers, Safety Officers, Safety Professional, Safety Supervisors, Site Supervisors connected with Factory, Port Sector and Construction site.
