**Training Programme On Safety Of Pressure
Vessel (Fired And Unfired)
(5th to 7th July, 2023)**

ABOUT THE COURSE

Pressure vessels are used in a variety of industries, including oil and gas, chemical manufacturing, and power generation. These vessels are designed to store and transport high-pressure gases and liquids, making their safety a top priority. Our training programme is designed to provide participants with a comprehensive understanding of the principles of pressure vessel safety, with a particular focus on fired and unfired vessels. Participants will learn how to identify potential hazards and how to develop effective strategies to mitigate those risks. The programme is suitable for engineers, technicians, supervisors, and safety professionals who are involved in the design, manufacture, installation, operation, and maintenance of pressure vessels.

OBJECTIVE

The objective of this training programme is to analyse the process hazards and implement the necessary risk mitigating methodology in terms

of latest techniques and current statutory requirements to overcome the challenges. This programme aims to facilitate the delegates on value system and impact assessment.
